- Generous superannuation and salary packaging opportunities

At UNSW, we pride ourselves on being a workplace where the best people come to do their best work

Lecturer - Cyber Security & Computer Science

School of Engineering and IT

Academic Level B - \$103,047 – 121,478 + 17% Superannuation

Up to 5 Year Fixed Term Appointment

The School of Engineering and Information Technology (SEIT) offers a flexible, friendly working environment that is well-resourced and delivers research-informed education as part of its accredited, globally recognised engineering and computing degrees to its undergraduate students. The School offers programs in electrical, mechanical, aeronautical, and civil engineering as well as in aviation, information technology and cyber security to graduates and professionals who will be Australia's future technology decision makers.

The University is seeking applications from up and coming academic leaders who wish to advance their career at a GO8 University in Australia.

The following discipline areas are of interest in this recruitment process and suitably qualified applicants are encouraged to apply;

- Cyber Security & Computer Science with a focus in the following areas;
 - Digital Forensics
 - Data Analytics
 - Security

Successful applicants will be expected to undertake a full complement of research and teaching activities, or engage in an active research program relevant to the teaching duties or discipline, and to contribute to the achievement of the research, teaching and service missions of the School.

Applicants from industry and professional backgrounds are welcome and should demonstrate their equivalent level of standing as demonstrated by professional experience.

We are looking for someone who has:

- a PhD in Cyber Security, Computer Science or equivalent
- a strong emerging research profile (desirable)
- experience in teaching at undergraduate and graduate levels
