Associate Professorships in Machine Learning, Kobenhavns Univeristet (University of Copenhagen) Department of Computer Science, Denmark.

JOB DESCRIPTION
title Associate Professorships in Machine Learning
Employer University of Copenhagen
Job location Study thread, 1455 Copenhagen
Application deadline unspecified
Employment Types Assistant Professor / Associate Professor
Areas Computervidenskab, Machine Learning

JOB DESCRIPTION
Department of Computer Science
Faculty of Science
University of Copenhagen
The position is open from 1 aug 2019 or as soon as possible thereafter.
The associate professors will join the Machine Learning section. The section's research is concerned with the theoretical foundations and applications of machine learning, image analysis, natural language processing and information retrieval.
Applicants are required to have university level teaching experience, documented teaching competencies and must be able to explain and reflect upon own teaching practice and portfolio. Formal pedagogical training or supervision equivalent to the University of Copenhagen teacher training programme for assistant professors is required.

Please find the full job advertisement at employment.ku.dk.
Only electronic applications are accepted.
Part of the International Alliance of Research Universities (IARU), and among Europe's top-ranking universities, the University of Copenhagen promotes research and teaching of the highest international standard. Rich in tradition and modern in outlook, the University gives students and staff the opportunity to cultivate their talent in an ambitious and informal environment. An effective organisation – with good working conditions and a collaborative work culture – creates the ideal framework for a successful academic career.
